SCISSORS AND PENCIL

The entrance of Hon. Sherman E. Burroughs into the Congressional arena reminds us of the principal character in that bright, snappy and ever popular opera, "Pinafore." We have all heard of Sir Joseph Porter, K. C. B., of whom it was sung:

"He might have been a Rosebud,
A French or Turk or Proosbun."
But he remained an Englishman.

And so with Mr. Burroughs. He could easily have been elected governor of New Hampshire this fall had he desired the office. Both factions of the Republican party urged him to accept the nomination, and had he consented his name would in all probability have been the only one on the Republican official ballot printed for the primaries. But he chose to be a Congressman. The governorship is all right in its way, but Congress is in need of warm, young blood of the Burroughs kind. The next Congress will have questions to settle which call for the best men the country has in its political ranks, and Mr. Burroughs is well qualified to assist in their solution. The question of the amount of pension money to be given to soldiers is of small moment, compared with the tariff, the forest reserve bill, and others now occupying the attention of the country. This isn't a time for stand-patters in Congress. We must press forward or go backward. Sulloway cannot come back. He does not want to come back. He glories in the fact that he is a stand-patter. He has condemned President Taft on the public platform, and eulogized Speaker Cannon. Those who are for Taft and against Cannon and Cannonism must be with Burroughs. It isn't a question of pensions and post offices. It is a question of this Republican party redeeming its pledges to the people. Mr. Sulloway does not want them redeemed. He said so at Canobie Lake August 29, 1909. He proved his words when he voted for the Payne-Aldrich tariff bill. Mr. Payne writes Sulloway that he wants to see him in the next House, and Sulloway is so proud of this endorsement that he pays the newspapers for huge advertisements containing Payne's letter. Sulloway has no use for the d—d forest reserve bill and glories in the Payne-Aldrich tariff bill. How do you feel about it, Mr. Republican voter?

[illegible] political record, like Banquo's ghost, will not down. He recently referred to Hon. Sherman E. Burroughs as a boiler because the latter is opposing Sulloway in the primaries. Editor McDuffe of Rochester writes as follows in this connection:

I suppose that, in spite of my lack of years, which you evidently regard as a crime, I should have recalled that the man who violently opposed James G. Blaine in the campaign of 1884—branding him as one of the most dishonest men of modern times—and eulogizing Grover Cleveland, later completely reversed his attitude, and now loudly proclaims his undying regularity in Republicanism, regarding it as little less than a crime to oppose the powers that be in the party; that he, who a quarter of a century ago shouted that he believed in absolute Free Trade, a few years later declared that he would build up a veritable Chinese wall of tariff about this country; that he who was once a Free Silverite and a Greenbacker, not so many years afterwards posed as one of the staunchest advocates of Sound Money; and I should have therefore realized that there was every likelihood that he who had apparently done what he could secretly to overthrow the Appalachian bill would sooner or later come out and claim that he was one of its most zealous advocates.

Next Tuesday is the time set for voting at the primaries, and it is to be hoped that a large vote will be polled. If the new law does not work well it will be amended in the coming years, but it must be given a fair trial, and it is up to the voters to see that the trial is a fair one. Let us withhold our criticisms until we know what we are talking about.

How times have changed. It was only a few years ago that party spoils were considered legitimate by a majority of the people, and a great many politicians continue to cling to that doctrine, but they grow beautifully less in numbers as the years come and go. A few days ago Ex-President Roosevelt said: "I believe in party government, but the moment a question of honesty is involved I recognize no party distinction." It was not always like this in years past. It is told of Thaddeus Stevens, a great man in his day, that on arriving late in Congress one day he was told that the matter under discussion was a case of disputed election between a Democrat and Republican, his informant adding that both claimants were d—d rascals. "But," inquired Stevens, intent on voting for the Republican claimant, regardless of the merits of the case, "which is our d—d rascal?"

This is a mighty good ticket to tie to at the primaries next Tuesday:

For Governor—Hon. Bertram Ellis.

For Congress—Hon. Sherman E. Burroughs.

For Councilor—Hon. George H. Turner.

For State Senator—Charles H. Bean.

Put your cross opposite the names above recorded and you will make no mistake. Everyone of them have been life-long Republicans and they are all fitted for the positions of honor which they seek.

Congressman Sulloway now claims that he has always favored the White Mountain Forest Reserve bill, alleging that Hon. Sherman E. Burroughs is misrepresenting him in his speeches throughout the state. Hon Philip W. Ayers, formerly chief forester of the State of New Hampshire, says of Sulloway: "I know of nothing at all that he has done. In the early stages of the matter, five years ago, when invited to a conference on the subject in Senator Gallinger's office, he attended, but remarked at the close of the conference that he did "not believe in the damned bill but would vote for it."

"He has attended none of the hearings, of which there have been many, except next to the last one, on January 19, 1910, which was after a statement in some of the New Hampshire papers that he was opposed to the Appalachian bill."

"As far as I know he has never done anything to advance this bill. There is hardly a member of the Massachusetts delegation that has not done more than he. (From a letter written by Mr. Ayers and quoted in the second letter of McDuffee to Sulloway)"

Those of us who believe in this bill will know how to vote at the primary next Tuesday. We shall vote for the Hon. Sherman E. Burroughs, who is heart and soul with the bill and will work for it until it becomes a law, and it would be a law today if Cyrus A. Sulloway had believed in it and worked half as hard for it in the past five years as he is now working to make the voters believe that he favored the [illegible] to use his own words [illegible]

WORTH MOUNTAINS OF GOLD

During Change of Life, says Mrs. Chas. Barclay

Granteville, Vt. — "I was passing through the Change of Life and suffered from nervousness and other annoying symptoms, and I can truly say that Lydia E. Pinkham's Vegetable Compound has proved worth mountains of gold to me, as it restored my health and strength. I never forget to tell my friends what Lydia E. Pinkham's Vegetable Compound has done for me during this trying period. Complete restoration to health means so much to me that for the sake of other suffering women I am willing to make my trouble public so you may publish this letter." — Mrs. Chas. Barclay, R. F. D., Granteville, Vt.

No other medicine for woman's ills has received such wide-spread and unqualified endorsement. No other medicine we know of has such a record of cures of female ills as has Lydia E. Pinkham's Vegetable Compound.

For more than 30 years it has been curing female complaints such as inflammation, ulceration, local weaknesses, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration, and it is unequalled for carrying women safely through the period of change of life. It costs but little to try Lydia E. Pinkham's Vegetable Compound, and, as Mrs. Barclay says, it is "worth mountains of gold" to suffering women.

Little, but Oh, My!

Senator Smoot of Utah tells a story on the late E. H. Harriman, which sounds somewhat familiar. He says that when the Salt Lake cut-off was completed Mr. Harriman took a large party of big railroad men out to it.

They had their pictures taken at the right spot scenically. Mr. Harriman stood at one end of the group. When the pictures were printed and the photographer brought them around the railroad men examined them.

"Why," shouted one of the guests, "where's Mr. Harriman?"

"Now you mean that little chap that stood at the end?" asked the photographer. "Why, I cut him off."

Corona Cure Material.

Lemons are said to be an infallible cure for rheumatism. This is the method of preparation: Take one lemon, scrub thoroughly with a brush and hot water till all germs are gone, cut in very small pieces, using skin, seeds and all; cook in three glasses of water till reduced to one, and take this while fasting. A cure is generally effected within a week.

INDEPENDENT IN POLITICS.

AN EXPLANATION AND A REQUEST TO SUBSCRIBERS.

The postoffice department at Washington has made a ruling to the effect that, to subscribers to weekly papers one year in arrears in payments, the benefits of second class postage shall not be given. In other words, if the mailing of papers to such subscribers is continued, these particular papers will be subject to a rate four times as high as the usual rate, thus adding 52 cents per year to the cost.

The purpose of the department we believe, is to eliminate from the mails a vast amount of matter that goes though at second class postage rates, and which is believed would not be classed as legitimate newspapers, but advertising schemes with padded subscription lists, which, should bear a postage rate of four times second class postage.

The postoffice department is entitled to every assistance in its endeavors, and for legitimate newspapers and their subscribers its ruling will have no unfavorable effect. If there are any of our subscribers who owe us over one year, we ask them to kindly "help out" by sending remittance, thus saving the unnecessary expense of added postage.

STEEL TRUST AS CAT BUYER.

A rat got tangled up in one of the dynamos which supply power for the great blast furnace mill of the United State Steel corporation at Gary, Ind., says Louisville Courier-Journal. It required several hours to separate the rat's remains from the dynamo and in the meantime the corporation was losing money at the rate of a thousand dollars a minute. Now the steel trust is advertising for cats. Advertisements have been inserted in the Gary newspapers, offering 50 cents apiece, with no limitations as to age, sex, size, pedigree or character. Fifty cents a head is a good price for cats and the officials of the steel trust are likely to have to contend with an embarrassment of offerings. When the news percolates to all the cities and small towns of Indiana there will be a rush of feline shipments to Gary and the steel trust will find itself with a surplus of cats scarcely less troublesome than the overplus of rats with which it has been contending heretofore. Hundreds of Indiana families will willingly part with all their feline possessions at a cent, [illegible] n of 50 cents per cat. The report from Pisa that royal engineers state that the inclination of the leaning tower at that place has increased eight inches and that the structure is likely to collapse will tend to further increase the number of those who believe that the tower was never intended to be a freak of masonry, but that it became a wonder by the yielding of its foundation on one side. As a "drawing card" for tourists the famous leaning tower has had value in addition to the historic considerations, and if it should fall there would doubtless be a demand for its reconstruction. A modern builder could give Pisa a leaning tower of greater inclination by using an anchored steel skeleton and clothing it with well fastened veneer.

A speaker at a meeting of a medical society in New Jersey declared that some of the greatest surgeons living had left sponges, forceps and other instruments in the abdominal cavities of persons operated upon, and that the practice was "inexcusable." This makes cheerful reading for the lay public, especially that portion of it that has hospital experience in prospect; but the statement of the existence of this practice is also puzzling from the fact that it must be a more or less expensive practise to the surgeons themselves to be so careless about losing good instruments.

Why He Was Sorry.

To impress on young [illegible] on just what should and what [illegible] not be done and why, is a most [illegible] by the recent experience of a West Philadelphia mother. Last Sunday she asked her small son, aged eight, to carry a chair for her from the dining room to the parlor. He started off willingly, but in the hall he tripped and fell. Amid the crash could be heard the boy giving vent to utterances that would have done credit to a pirate of ancient days. The mother was taken by surprise and was greatly shocked. She gave the boy a long and serious talk on the subject of profanity. This apparently did not make the right impression, for when she concluded the boy added to her discomfiture by exclaiming: "I am sorry I swore, mamma, but I forgot it was Sunday."

A Diplomat.

"And how old should you say I am?" giggled the golden-haired spinster, with a coy glance at Bjones.

"Ah, Miss Smiley," replied Bjones, with a low bow, "I do not think you are old at all. Ask rather how young do I take you to be."

And she was so pleased she forgot to.—Harper's Weekly.

Evidences of Wealth.

"I wish we had a piano; I'd like to impress those people."

"Show us the pieces of beef you've got in the refrigerator."

LACK OF MONEY
Was a Godsend in This Case.

It is not always that a lack of money is a benefit.

A lady of Green Forest, Ark., owes her health to the fact that she could not pay in advance the fee demanded by a specialist to treat her for stomach trouble. In telling of her case she says:

"I had been treated by four different physicians during 10 years of stomach trouble. Lately I called on another who told me he could not cure me; that I had neuralgia of the stomach. Then I went to a specialist who told me I had catarrh of the stomach and said he could cure me in four months but would have to have his money down. I could not raise the necessary sum and in my extremity I was led to quit coffee and try Postum.

"So I stopped coffee and gave Postum a thorough trial and the results have been magical. I now sleep well at night, something I had not done for a long time; the pain in my stomach is gone and I am a different woman.

"I dreaded to quit coffee, because every time I had tried to stop it I suffered from severe headaches, so I continued to drink it although I had reason to believe it was injurious to me, and was the cause of my stomach trouble and extreme nervousness. But when I had Postum to shift to it was different.

"To my surprise I did not miss coffee when I began to drink Postum.

"Coffee had been steadily and surely killing me and I didn't fully realize what was doing it until I quit and changed to Postum."

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

POPULATION 100,000,000, SAYS CENSUS CHIEF

It Is 90,000,000 Without the Insular Possessions.

GROWTH OF THE BIG CITIES

Immigration Adds 6,000,000 to the Population Since the Last Census —Percentage of Increase in Cities of 100,000 or More.

Washington.—The census figures of New York, Chicago and Philadelphia have been tabulated. Material gains in population were made by each of these cities in the last decade, according to census officers.

The population of New York City is 4,600,000.

The population of Chicago is 2,400,000.

It is the belief of the census officers now that the population of the United States, including the insular possessions, will approximate 100,000,000. A year ago it was estimated that the population of the states, based upon the rate of gain for the decade between 1890 and 1900, would be in the neighborhood of 90,000,000.

"This is only a rough guess," said Director Durand, "but I believe the returns will show there is a population of 90,000,000 in the country, not counting the Philippines. It may run up to 91,000,000, but I doubt it. Of course if the population of the Philippines be included the figures will be close to the 100,000,000 mark.

"I expect the tabulation to be completed by November 15, and immediately afterward we will be able to announce the population of the country.

"The net gain from immigration during the last ten years has not been so large as would be supposed.

"Taking the ten years' net increase it will be seen that approximately 6,000,000 persons have been added to the population of the country by immigration since the last census. Possibly 500,000 of these have died in this time.

"The percentage of increase since the last census of these cities, that is, those whose population has been given out, is more than 20 per cent."

BETROTHED COUPLE DROWNED.

Had Gone Out in Boat to Try on Wedding Ring.

New Milford, Conn.—Lake Waramaug has again claimed two New Yorkers as victims.

One year ago to the day and at about the same hour two New York girls were drowned here.

The victims were Miss Luella Moore, twenty-five years old, of 1 West Sixty-eighth street, Manhattan, and R. Waldron, thirty, of 77 Jefferson avenue, Brooklyn.

They were to have been married in October.

There are slightly conflicting stories as to how the accident occurred, but it is generally believed that an oarlock became loose and dropped into the water and that Mr. Waldron upset the craft in reaching for the oar. They had gone out in the boat to try on the wedding ring which he had purchased in each other's arms.

EIGHT HOURS IN CISTERN.

Mother Plunges in to Save Baby From Drowning.

Sedan, Kan.—Mrs. John Burch, wife of a young farmer living near here, saved her child from drowning in a cistern by plunging into the water after it and holding it in her arms above the water until help came eight hours later.

The baby, less than two years old, was playing about the cistern when the trap-door on the platform gave way under her weight and she fell into the water, several feet below. The mother saw the child disappear under the water and leaped into the cistern after it.

When her husband came in from his fields he heard his wife calling and quickly rescued them.

KAISER'S DIVINE RIGHT.

His Speech Causes a Storm of Protest in Germany.

Berlin.—The speech delivered by Emperor William of Germany at the provincial dinner at Koenigsberg, in which he reiterated and emphasized his belief in the divine mandate by which he rules, referred to the Prussian crown as bestowed by God's grace and not by parliaments or people's assemblies and laid a lance against the present movement for woman's suffrage, is the political sensation of the hour. It has caused a storm of protest.

TAFT ON NEGRO EDUCATION.

Commends Hampton and Tuskegee to Man Who Wants to Help.

Beverly, Mass.—President Taft attended at the home of Mrs. Robert S. Bradley at Prides Crossing a meeting of the board of trustees of Hampton Institute and delivered an address on negro education. The President especially pleaded for more liberal financial assistance for schools like Hampton and Tuskegee and their offspring.

PROF. WILLIAM JAMES DEAD.

Famous Writer on Subject of Psychology a Victim of Heart Failure.

North Conway, N. H.—Professor William James of Harvard university, a distinguished author, teacher and philosopher, died unexpectedly at his summer home at Chocorua near this city. He had been in fairly good health until a recent journey to Europe and his death was a great shock to his friends. Professor James was sixty-nine years old.

BIRD McGUIRE EXONERATED.

Nothing to Sustain Gore's Charges Against Representative.

Pawhuska, Okla.—At the close of its hearing at Pawhuska the special house committee investigating Indian affairs issued a letter to Representative B. S. McGuire of the First Oklahoma district exonerating him, and setting forth that "there was no evidence whatever to sustain a charge or suggestion that you had or have any interest whatever in the so-called McMurray contracts, or in any other Indian contracts."

COL. THEODORE ROOSEVELT AGAIN STIRS THE WEST

Cheered by Large Crowds as He Hammers Against Dishonest Methods.

Chicago.—The Western journey of Colonel Roosevelt has borne a striking resemblance to the campaign traveling of a Presidential candidate except that the stops for rear platform speechmaking have been fewer and usually shorter. But it is the same kind of work, meeting hundreds and often thousands of people gathered at a railroad station, talking a few minutes to a shouting, cheering crowd, clasping hands tumultuously over the end rail of the car, and swinging on to repeat the performance at the next stop.

The Colonel did some plain talking to the crowds, which burst into the railroad yards at the largest places, swarmed across the tracks, and tied up traffic on the road. He talked against dishonest corporations, and the crowds roared with applause. He condemned dishonest men, and there were more cheers. He attacked mob rule, and was cheered again.

FOREST FIRES DIE DOWN.

Revised Tabulation of Those Who Perished in Flames.

Spokane, Wash.—Following is a revised tabulation of 203 dead in the northwestern forest fires.

United States fire fighters in and near Idaho, 86; Montana deaths, including Bullion mines, 13; at Newport, Wash., 3; at Wallace, Idaho, 4; near Avery, Idaho, probably settlers, 47; at Mullan, Idaho, 2; at Spokane, 1; on Big Creek, Idaho, 47.

This gives a total of 203 dead, but it is probable that some of these listed by places may duplicate those listed as fire fighters. Also many are still missing, the total dead will probably be more than two hundred when the record is complete.

The fire is not so violent and it is believed that the worst is over.

ROOSEVELT FIGHTS SHERMAN.

Evidence at Great Picnic That His Popularity Remains.

Utica, N. Y.—In his first public political utterances since he left the White House a year and a half ago Col. Theodore Roosevelt made it perfectly clear to the people of Herkimer and Oneida counties, whom he was addressing at the annual state grange picnic at Oriskany, that his heart and soul were against the group of Republican leaders in this state represented by Vice President Sherman and his immediate coterie. It was the second shot Colonel Roosevelt had taken at Mr. Sherman during the day, and coming so promptly after the letter from President Taft to Lloyd C. Griscom it was taken as being all the more significant.

The picnic brought out at least 10,000 people to see and hear Colonel Roosevelt. They greeted him with wild hurrahs and familiar cries of the sort that are dear to his heart.

Cycling Declines.

Washington.—Bicycling as a pastime is rapidly decreasing in popularity abroad, as well as in this country. Government statistics show a tremendous falling off in exports of bicycles from the United States. Explanation of the decrease is found in the fact, it is said, that bicycles are now used chiefly for business.

HOKE SMITH BEATS BROWN.

Georgia's Ex-Governor Wins Handsomely Over Present Occupant.

Atlanta, Ga.—Hoke Smith "came back" and was nominated for the second time for governor of Georgia, defeating Gov. Joseph M. Brown, who two years ago defeated Smith after he had dismissed Brown from the railroad commission on the ground that Brown was dominated by the railroad interests.

The fight was between the progressive Democrats, represented by Smith, and the standpat element, represented by Brown.

Nation-Wide Primary.

Des Moines, Iowa.—When congress convenes in December United States Senator Cummins of Iowa expects to propose the enactment of a federal primary law providing for the nomination of candidates by a nation-wide primary election.

The Plate Strike Ended.

Pittsburg.—The strike that has existed since July, 1909, against the American Sheet and Tin Plate company, in three different states, was declared off and 15,000 men resume work.

Boy Accidentally Kills Mother.

Corry, Pa.—Mrs. Robert Thompson, thirty-two years old, of Pittsfield, was shot and instantly killed by her twelve-year-old son, Dewey. The boy had received a rifle as a present and was showing his mother how he would kill a burglar.

Fall Kills Dr. W. V. W. Davis.

Pittsfield, Mass.—Rev. Dr. William V. W. Davis, pastor of the First Congregational church of Pittsfield, fell over a ledge of rocks at Bash Bish Falls in Copake, N. Y., and was killed.

FIREBUGS DEVASTATE TOWN OF ORLEANS IN NEW YORK

Citizens Desert Homes as Building After Building is Burned Mysteriously.

Buffalo.—Building by building, incendiaries devastated Orleans, Ontario county, N. Y., only recently a flourishing village of 3,500 population. The one place of business left standing is the Orleans hotel and that has been vacated. Panic fills the place, armed volunteers nightly patrol the streets, citizens fearing they would be burned alive in their beds, have left their homes, some of which can be bought for the price of the cement walks before them. A woman locked up her house on the main street and left town; recently a fire destroyed the house next door but one to hers; another fire the house next hers; then she left.

There being no doubt that firebugs are busy, men regard each other suspiciously and life-long friends have become enemies. They refuse to talk to each other about the fires, and they fear doubly to talk to "an outsider." This attitude hampers the investigations being made by District Attorney Myron D. Short and Sheriff Gooding.

The first and most destructive fire started at midnight April 16 last. Although several buildings burned there were insured risks and losses paid out $30,000. Now the insurance companies refuse to do business at Orleans, which has so fire department.

Pinkerton detectives, posing as farm hands, tried to find the origin of the oft-recurring fires. After a month the detectives went away with the strong suspicion that the intense bitterness between the "wets" and "drys" over the local option question had much to do with the incendiarism. For most of the property destroyed belonged to the "drys," who are called "[illegible]kings" at Orleans.

[illegible] got the proof, and [illegible] known, the evidence [illegible] to convict anybody is [illegible]

Orleans is a "dry" town after October 1 next, the voters so declared last autumn. The fierce animosities aroused at such a village election cannot be understood by those who live in large cities.

In the first fire, April 16, 21 business places and homes were wiped out. The fires followed at frequent intervals, happening always at night. District Attorney Short began his investigation at Canandaigua, eight miles from Orleans. Early in June he transferred it to Orleans. On June 14 Clarence M. King's general store in Ontario street, Orleans, was burned at 3 a. m.

"A taint aimed at the county investigators," a local newspaper described this fire.

NEW MODE OF WARFARE.

Gigantic Submarine to Drag Battleships Down.

Washington.—Maj. Gen. Leonard Wood, chief of staff of the army, has had his attention called to a novel method of naval warfare.

An inventor sent to his office designs of a gigantic submarine construction, said to be capable of approaching a fleet under water at the psychological moment, moving a huge wing over an unsuspecting battleship, dragging it down to the bottom of the ocean and holding the vessel there until its crew is drowned.

MURDERED WIFE, SON SAYS.

Rockland Folk Try to Lynch Man, Following Identification.

Pearl River, N. Y.—Edward Wagner, a carpenter and builder of this town, narrowly escaped lynching at the hands of excited relatives and neighbors, when Constable A. L. Jersey took him to his wife's home, a mile outside the town, where his seventeen-year-old son positively identified him as the man who shot and instantly killed his mother.

Buffalo Smaller Than Detroit.

Washington.—The population of Buffalo, N. Y., according to the new census, is 423,715, an increase of 71,328, or 20.2 per cent. over the 1900 figure, which was 352,387. Buffalo thus fails to keep pace with Detroit, which now counts 456,766 inhabitants.

Camper Drowned From a Canoe.

Asbury Park, N. J.—William Miller of Brooklyn was drowned in Shark river when a canoe which he, Arthur Champion and a young woman were in capsized.

Former Senator Call Dead.

Washington.—Cerebral hemorrhage was the immediate cause of the death at the Emergency hospital here of former United States Senator Wilkinson Call of Florida. He was a native of Russellville, Ky., and was seventy-six years old. He represented Florida in the upper house for 18 years.

Famous Feudist Slain.

Jackson, Kan.—John Abner, one of the most noted feudists of the Kentucky mountains, who was connected with the Hargis-Callahan-Cockerell feud, was shot and killed near here from ambush by unidentified persons.

NO CHANCE TO GO WRONG

Statement of Beauty Doctor May Have Been True, but It was Not Gallant.

William F. Oldham, bishop of Singapore, talked at a dinner, on his last visit to New York, about missionary work.

"A certain type of man," he said, "goes about declaring that we dominant races civilize the savage out of existence—that we do them harm instead of good.

"Well, as a matter of fact, if these cavaliers knew what I know about some tribes, they would speak less confidently. Some tribes are so debased that to do them anything but good would hardly be possible. They are, in fact, just like the ugly woman who visited the beauty doctor.

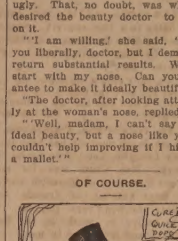
"This woman was ugly in every feature, but her nose was particularly ugly. That, no doubt, was why she desired the beauty doctor to begin on it.

"'I am willing,' she said, 'to pay you liberally, doctor, but I demand in return substantial results. We will start with my nose. Can you guarantee to make it ideally beautiful?'

"The doctor, after looking attentively at the woman's nose, replied:

"'Well, madam, I can't say as to ideal beauty, but a nose like yours I couldn't help improving if I hit with a mallet.'"

OF COURSE.



The Friend—Your new patent medicine seems to have gained a great reputation for curing people. To what do you attribute its great curative powers?

The Boss—To extensive and judicious advertising.

IN AGONY WITH ECZEMA

"No tongue can tell how I suffered for five years with itching and bleeding eczema, until I was cured by the Cuticura Remedies, and I am so grateful I want the world to know, for what helped me will help others. My body and face were covered with sores. One day it would seem to be better, and then break out again with the most terrible pain and itching. I have been sick several times, but never in my life did I experience such awful suffering as with this eczema. I had made up my mind that death was near at hand, and I longed for that time when I would be at rest. I had tried many different doctors and medicines without success, and my mother brought me the Cuticura Remedies, insisting that I try them. I began to feel better after the first bath with Cuticura Soap, and one application of Cuticura Ointment.

"I continued with the Cuticura Soap and Cuticura Ointment, and have taken four bottles of Cuticura Resolvent, and consider myself well. This was nine years ago and I have had no return of the trouble since. Any person having any doubt about this wonderful cure by the Cuticura Remedies can write to my address. Mrs. Alfie Etson, 93 Inn Road, Battle Creek, Mich., Oct. 16, 1909."

All the Difference.

The professor was delivering an eloquent address on cruelty to animals, and, to illustrate how a little judicious forethought would eliminate to a great extent the sufferings that even small insects are subject to, said:

"As I was coming through the hall tonight I saw a bald-headed gentleman very harshly treat a little innocent house-fly which had alighted on his head.

"Now, if there was any justification for such bad temper, I would be quite justified in indulging in it at the present moment, for a fly has just alighted on the back of my head. I can't see it, but I can feel it.

"Possibly some of you can see it now; it is on the top of my head. Now it is coming down my brow; now it is coming on to my— G-r-r-eat pyramids of Egypt, it's a—wasp!"

The Stylish Fisherman.

One of the guests of a fashionable summer resort in West Virginia got himself up in his best fishing togs and started along a certain mountain stream.

Meeting a native, he asked: "Here, my good man! Kindly tell me whether it would be worth my while to try fishing in this vicinity."

The native regarded him scornfully. "The fishin' ain't good," he finally said, "but I ain't informed as to how you values your time."—Lippincott's.

Hon. Sherman E. Burroughs was warmly greeted in Meredith last Thursday, while on his way from Wolfeboro to The Weirs. Mr. Burroughs had made arrangements to be at the News office at 10.30, but an accident to the automobile caused over an hour's delay. He arrived just at noon and remained until 1.30. While here he met quite a number of Republicans, although many who wished to meet him went to The Weirs before he got here. He was given strong assurance of support by many who believe that this eloquent, straightforward young man will make an excellent representative in Congress.

The body of Mrs. Frank Cram, of whose death mention has been made, was brought here for burial last week. Mrs. Cram was for many years a resident of Meredith and had a large number of friends here, where she was very popular. She was active in work in the South church and interested in many good objects. It was only a few months ago that her husband, Francis Cram, died. Mr. and Mrs. Cram resided in the house on Main street which they built and which is now owned by Dearborn Caverly. For the past few years Mrs. Cram has lived with her only daughter, Mrs. O. P. Smith of Center Harbor. Mrs. Smith and family have the warm sympathy of our people.

The nomination of Hon. George H. Turner of Bethlehem for councilor in the fifth district at the primaries next Tuesday seems assured. The reports from all over the district have been most favorable for the Bethlehem man's candidacy, and it is not surprising that this is the case. Besides having unusual ability for the administration of public business, Mr. Turner also has the capacity for making friends at home and abroad. That his friends are going to rally to his support throughout the entire district is absolutely certain. He is the right man for the governor's council, and the state will be better off for his nomination and election.

If you want any house painting done, L. D. Collins will do a good job for you. Shop near the wharf.

Sale and Concert

The annual sale and concert held by the ladies of the North Church was, as it always has been, a complete and gratifying success, and the net sum of $130.00 was realized. The sale in the afternoon was largely attended and the automobile rides were greatly enjoyed, S. A. Burleigh's auto being used. The tables in the hall were prettily decorated and did a rushing business. Mrs. Odell had charge of the punch table, and everybody was dry; the apron table was presided over by the Mrs. Meserve and Mrs. Beede; fancy table, Mrs. Page and Miss Ellie Beede; ice cream, Mrs. Blaisdell and Mrs. Dearborn; candy table, French and Ruth Briggs.

The entertainment in the evening was a charming affair. Meredith audiences are noted for their coldness, but the applause was constant all the evening. The concert opened with a piano solo, "Les Rameaux," by Mrs. Charlotte Lance. Miss Davis, a singer of pronounced ability, rendered three selections in a manner that called for encores and she was the recipient of a fine bouquet.

Frank Hale, a member of the noted Symphony orchestra of Boston was warmly greeted. He played a French horn with a sweetness that was entrancing. Nothing like it had ever been heard in town and it was keenly appreciated. Mrs. Lance was the accompanist. Miss Helen Prescott, daughter of John Prescott of Meredith, delighted the audience with violin solos. This wee miss has great talent, which is being developed by good teachers in Lynn, Mass. Joseph Lorraine was almost lionized. Every single selection rendered by this star entertainer was encored. His work on the banjo, the hand bells, his wonderful imitations and his whistling, when he produced three distinct tones at the same time, pleased one and all. We knew him years ago and liked his work and the coming and going years only accentuate this feeling. Mrs. Howard B. Briggs of Providence, R. I., was accompanist for Miss Davis, while Miss Maude Prescott played with her sister, the child violinist.

The ladies of the society labored indefatigably, but if there is any recompense in well doing, they certainly were recompensed. They made good and more than carried out the announcements made before the show.

CANDIDACY OF FRANK P. TILTON

At the coming primaries to be held on September 6, one of the candidates for the Republican nomination for County Solicitor is Frank P. Tilton of Laconia. Mr. Tilton is the present incumbent of that office and during his term he has in all ways conducted the office with success and at a low expense for the county. He has always been a strong Republican worker, and is well known through his work as Solicitor and his practice at the Belknap County bar.

A number of people believe that no reason exists for making a change in the Solicitorship at this time, and also that as the most of the work lies in the county seat, that the Solicitor should be located there, all other things being equal. Mr. Tilton is assured of good support all over the county and there is every reason to expect that he will be the nominee of the Republicans when the [illegible] September 6.

ADVERTISE IN THE NEWS.

Hon. William Rockwell Clough

Of Alton, Republican Candidate for Senator From the 4th District at the Primaries September 6.

Finding it impossible for him to leave his affairs just now for the purpose of canvassing the district, he wishes to say to the voters, to many of whom he assumes he is not unknown, that in the event of his success he will surely apply himself to the task and arrange his private affairs accordingly, giving his best efforts to matters relative to the rights, wants and needs of his constituents.

He does not expect to offer a panacea for every fancied political ill, but he is optimistic and does not believe the masses are being crushed. He does not attribute high prices to political blunders but is rather of the opinion that they may arise from lively demand, as a natural fruit growth from the prosperity of the masses, their general welfare and advancement to a higher standard of living. He is for equalization of taxes, better roads, state supervision of roads and a heavier contribution from automobilists for roads.

The history of that writer's life is "Hard Work." He and his ancestors are New Hampshire stock. After the education attainable on his father's farm, in the public schools of Alton and Gilmanton, the old Franklin Academy of Dover and Eastman College, Poughkeepsie, he struck out for himself and the first job of any consequence was for "Uncle Sam" at Port Hudson. After the war, came actual entrance into commercial life. He represented his town in the legislatures of 1897 and 1899. He is a 32d degree Mason, Knight Templar, present Master of Winnipesaukee Lodge and a Granger. Some of his newspaper friends like to refer to him as the inventor of the Wire Corkscrew. Let the writer hasten to explain that his Corkscrew is not the crafty shining corkscrew of the bon-vivant, but the little "baby" corkscrew which "improves each shining hour in burrowing into medicine corks. Millions of these are annually made by automatic machinery of the writer's design, in complete industrial operation at his factory in Alton, where he has instituted, for the benefit of his employes, the EIGHT-HOUR DAY, which he believes should eventually come with labor-saving machinery. This machinery the writer has installed in England, France and Germany, on the banks of the Thames, the Seine and the Rhine.

Daily visitors from parts near and far come to inspect his works and it now only remains for him to extend a cordial invitation to all his friends, when passing, to call and make or his acquaintance.

Charles H. Bean

Republican Candidate for the Senate in the Sixth District.

To the voters of the Sixth Senatorial District:

I, Charles H. Bean, will be a candidate for the Republican nomination for Senator from the sixth district, at the primaries next Tuesday, September 6.

Since representing the city of Franklin in the House of Representatives in 1903, I have had the ambition to serve in the upper branch of the Legislature. Early in the year I announced my candidacy for the Senate, and since that time I have by personal and legitimate means endeavored to promote my candidacy that I might be the nominee of the Republican party. Since announcing my candidacy I have tried to meet and talk with every Republican in the district that they might meet and judge the man who seeks their support and vote. To all I have been frank and truthful, and I believe the voters will bear me out in the statement that my canvass has been devoid of personalities.

If I have recently had to face many stories circulated by my political enemies which are in no degree truthful. Those who know me will not credit any suggestions of such nature. There are many in the district I have been unable to see, and to those I wish to state I have made no pledge but to represent my district faithfully and well if elected.

I am not, nor shall I be bound by any pledge or promise to any interest, private or corporate.

My canvass has been conducted on my own personal resources and I believe conducted fairly.

I will appreciate the honor of being your choice for the next Senate and I trust you will believe in me and honor me with your support and vote at the primaries Sept. 6.

Sincerely yours,

CHARLES H. BEAN.

H. M. Meserve.

Candidate for County Solicitor for Belknap County.

John M. Meserve of Tilton, who is a candidate for the Republican nomination of County Solicitor, is a native of Laconia, the son of Mr. and Mrs. James L. Meserve, now prominent residents of that city.

He studied law with Judge F. M. Beckford, later with Beckford & Hibbard, and was admitted to the New Hampshire Bar in December, 1904. Immediately upon being admitted to practice law he opened offices in Tilton, where he has since resided.

In 1905 he was married to Lulu J. Hart, a prominent school teacher of Laconia, and they have three children. Both Mr. and Mrs. Meserve are graduates of the Laconia High School, Mrs. Meserve also being a graduate of the State Normal School at Plymouth.

Mr. Meserve has taken a very active part in the politics of Tilton, and is also associated with several social and fraternal societies, being at present vice grand of Harmony Lodge No. 65, I. O. O. F., of Tilton, and a member of Tilton Encampment No. 33.

Four years ago he was a candidate for the Solicitorship, but was beaten in the convention by a very small margin by F. P. Tilton of Laconia, the present Solicitor.

According to party custom, Mr. Meserve is the logical candidate at this time and believes that in asking for the nomination he is asking for only what is fair and just.
